September 2014

Dear Customer,

Subject: U.S. Law "Dodd Frank Act" for Sourcing the Origin of Metals and Minerals

Technosoft declares that the company does not purchase 3T&G (tin, tantalum, tungsten & gold) directly from mines or smelters.

Technosoft is committed to a socially responsible supply chain that, among other requirements, is Conflict free.

We continue working with our supply chain to strengthen compliance and ensure that only "DRC (Democratic Republic of the Congo) Conflict Free" materials are used.

As a consequence, we require our suppliers to determine their sources and conflict status of the 3T&G supplied to Technosoft.

Based on the written assurance Technosoft has received from its major suppliers, we have had no indication that Technosoft products contain minerals from conflict mines or smelters in and around the DRC.

We understand the importance of this issue and we will continue gathering the information from our supply chain in order to declare a Technosoft as a Conflict Free Supply Chain.

Laurentiu Dumitru  
Operations Manager  
TECHNOSOFT (Suisse) SA
