<sup>1</sup> If +VLOG (J4 pin7) is not connected, the digital outputs and inputs will not be operational.

<sup>2</sup> Operating temperature can be extended up to +65°C with reduced current and power ratings.

<sup>3</sup> iPOS360x can be operated in vacuum (no altitude restriction), but at altitudes over 2,500m, current and power rating are reduced due to thermal dissipation efficiency.

<sup>4</sup> It is recommended to mount the iPOS3604 HX-CAN on a metallic support using the provided mounting holes, for better reliability and reduced de-rating due to heat dissipation
